

GRF

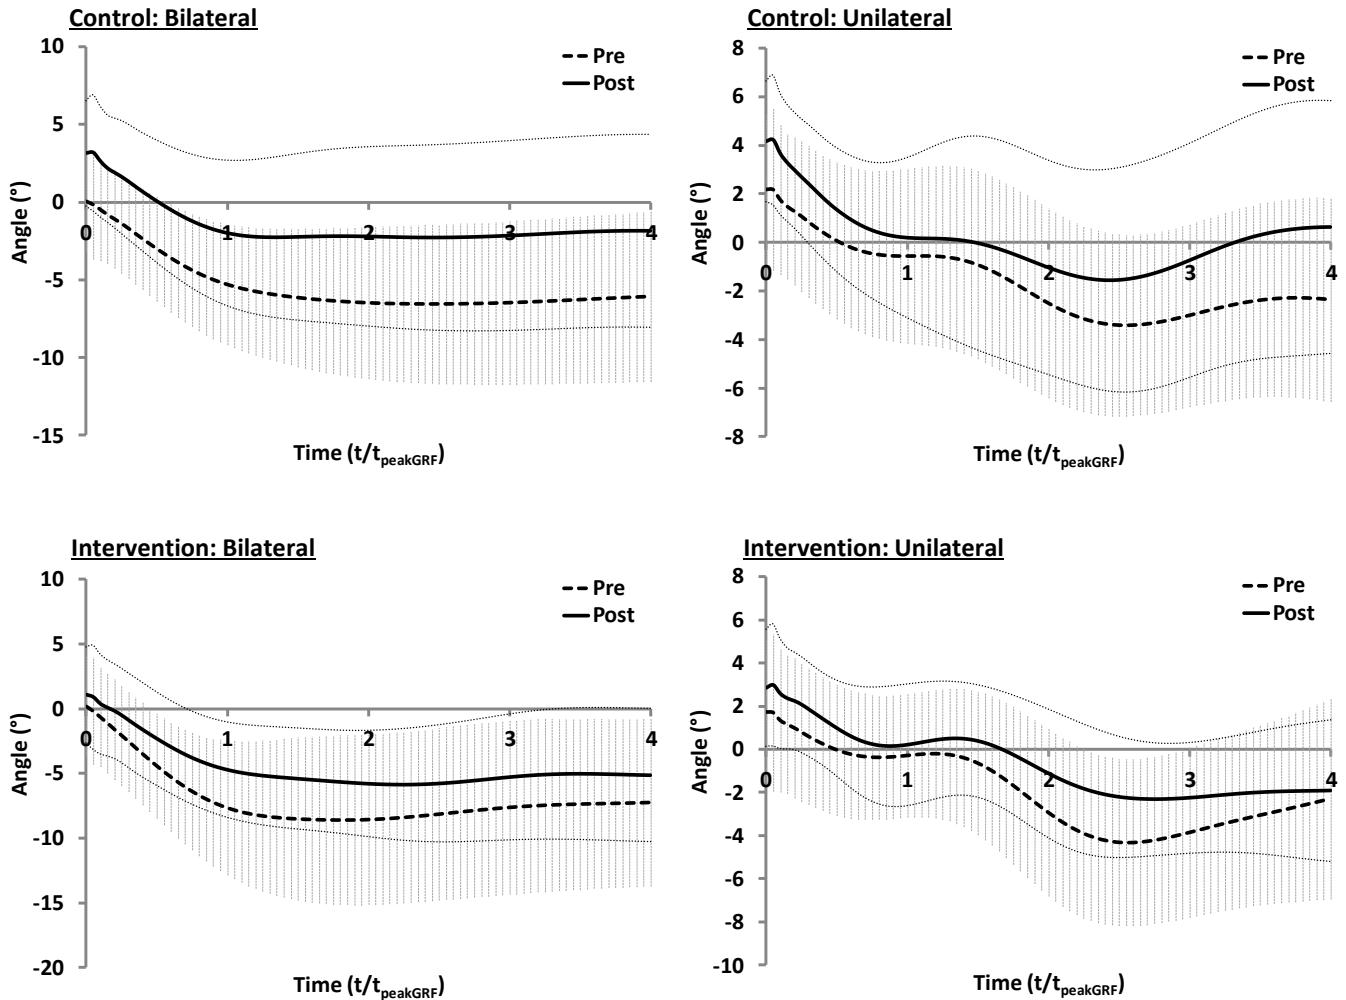

Knee: Flexion/Extension

More positive values represent increasing knee flexion

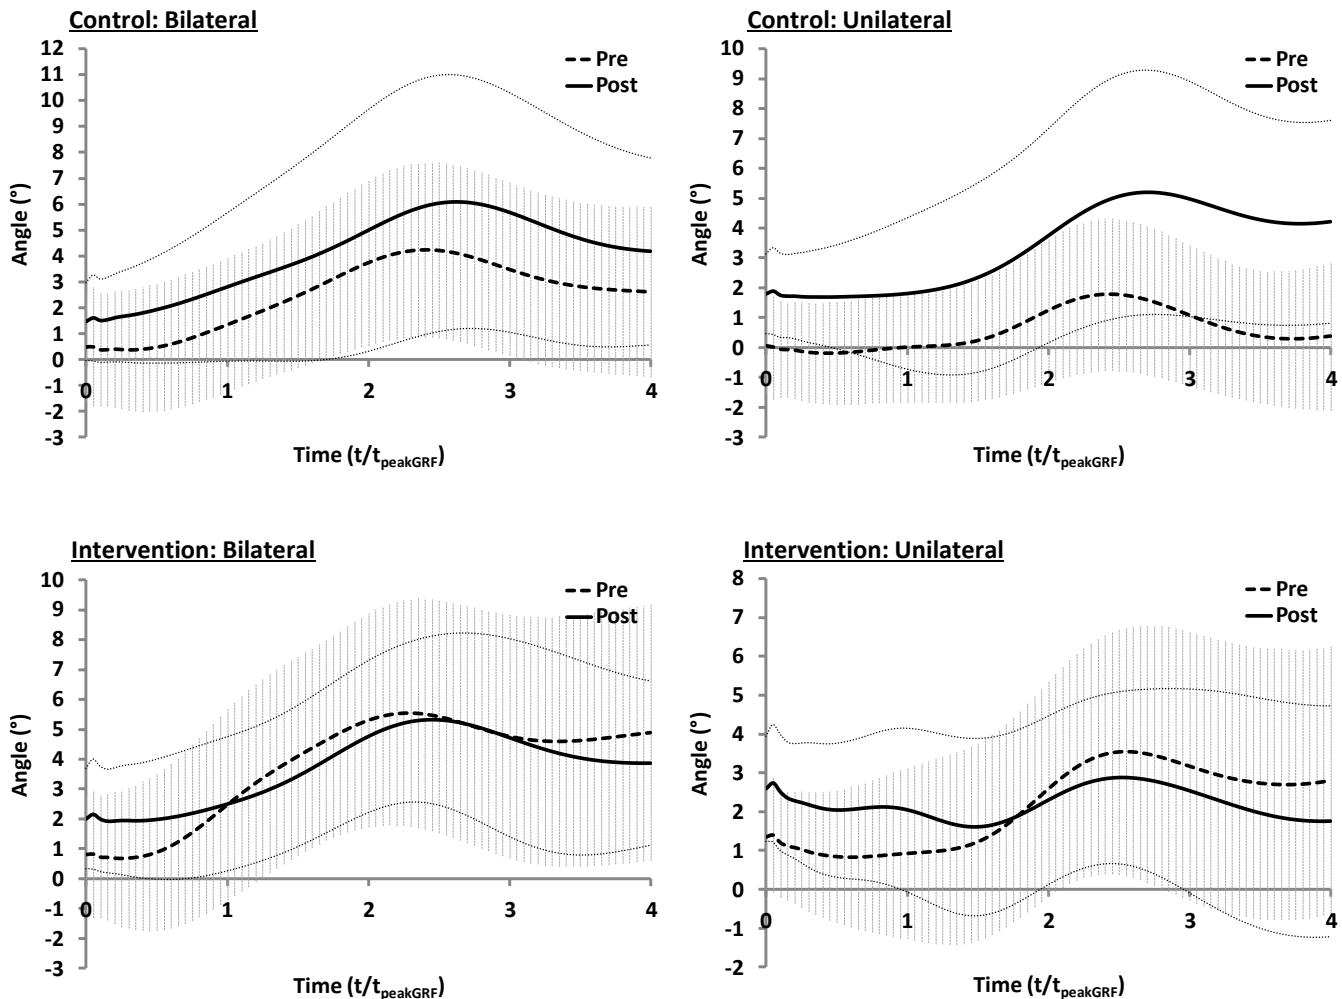

Knee: Int/Ext Rotation

More positive values represent increasing tibial external rotation

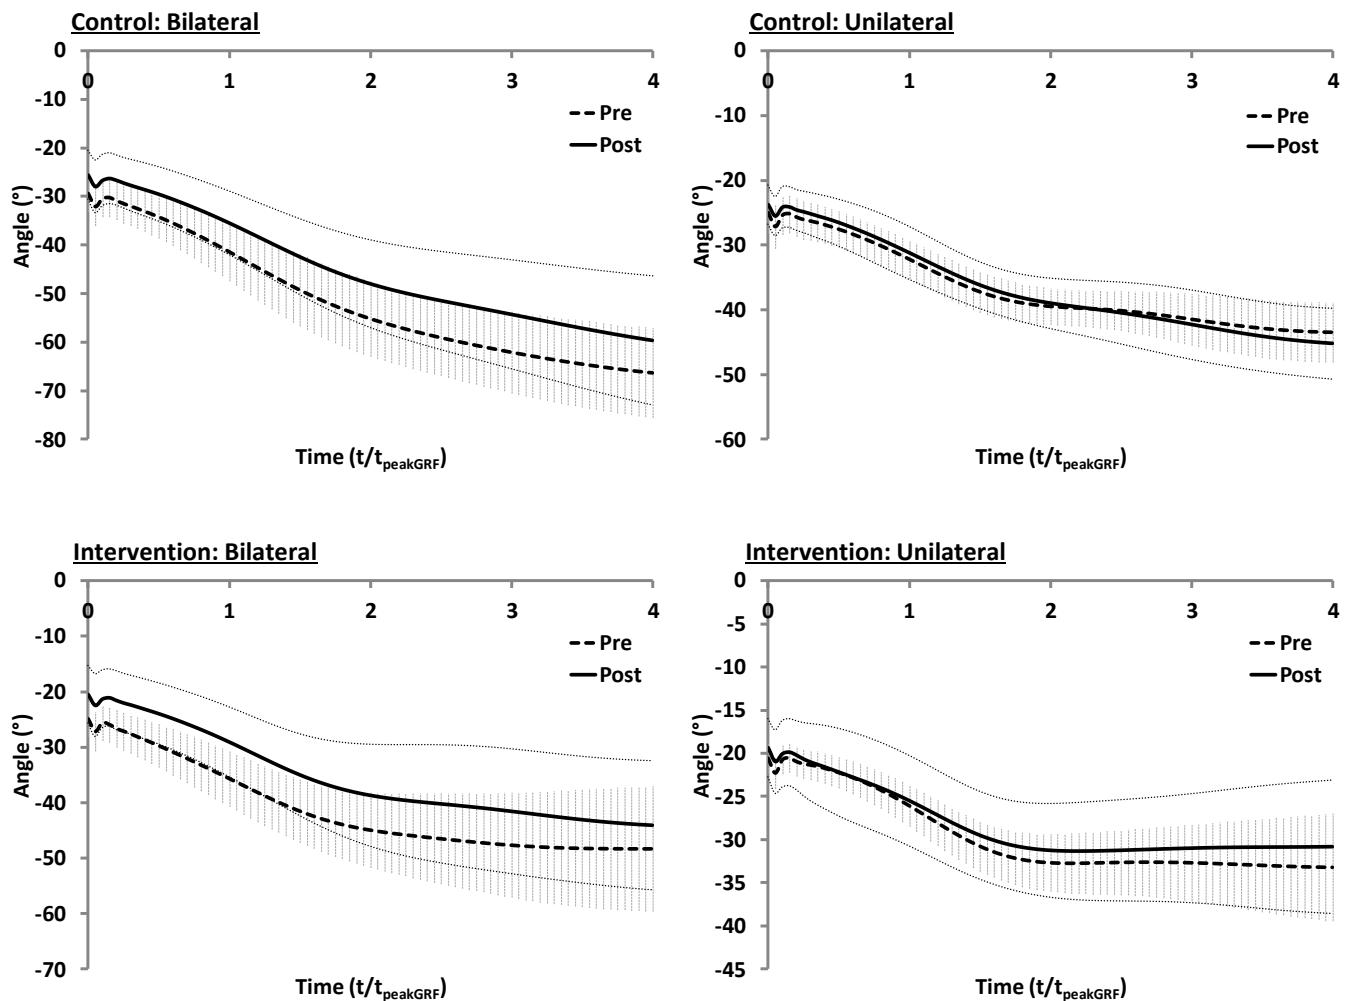

Knee: Ab/Adduction

More positive values represent increasing knee valgus

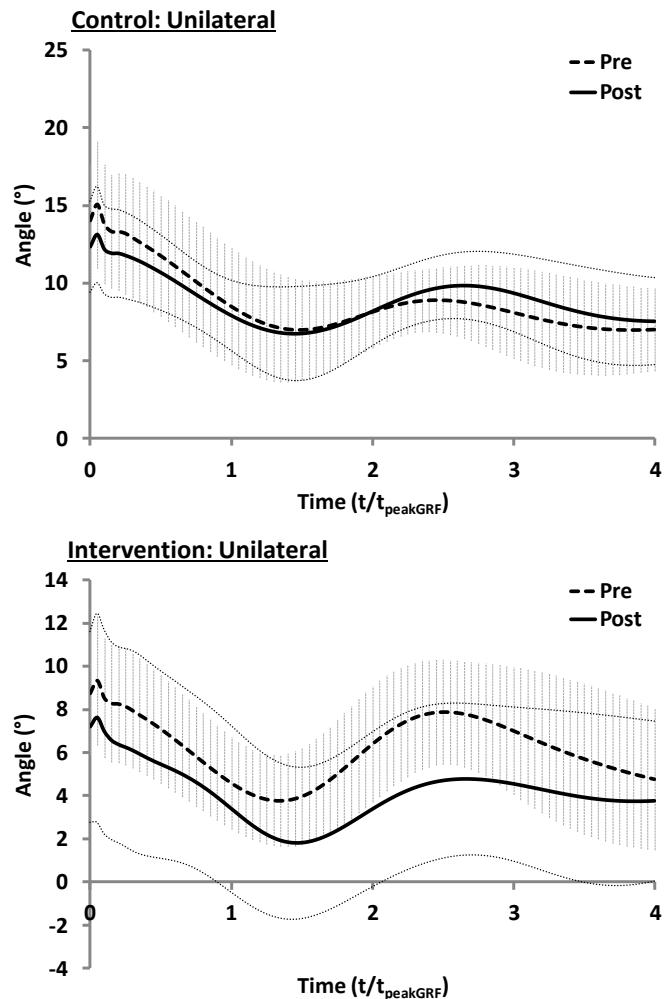

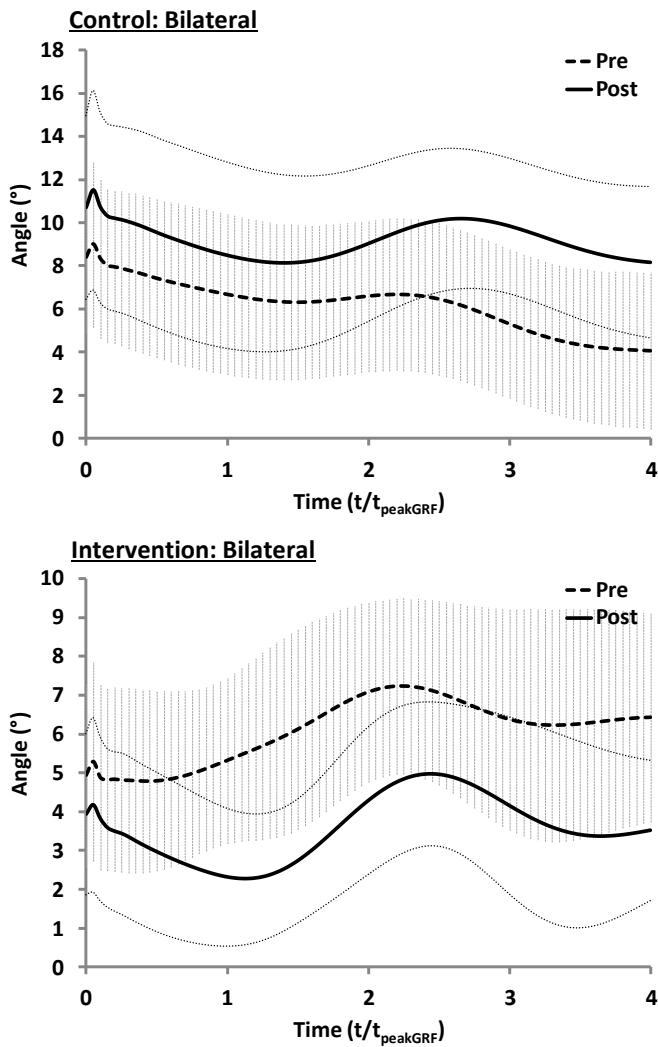

Hip: Flexion/Extension

More positive values represent increasing hip extension

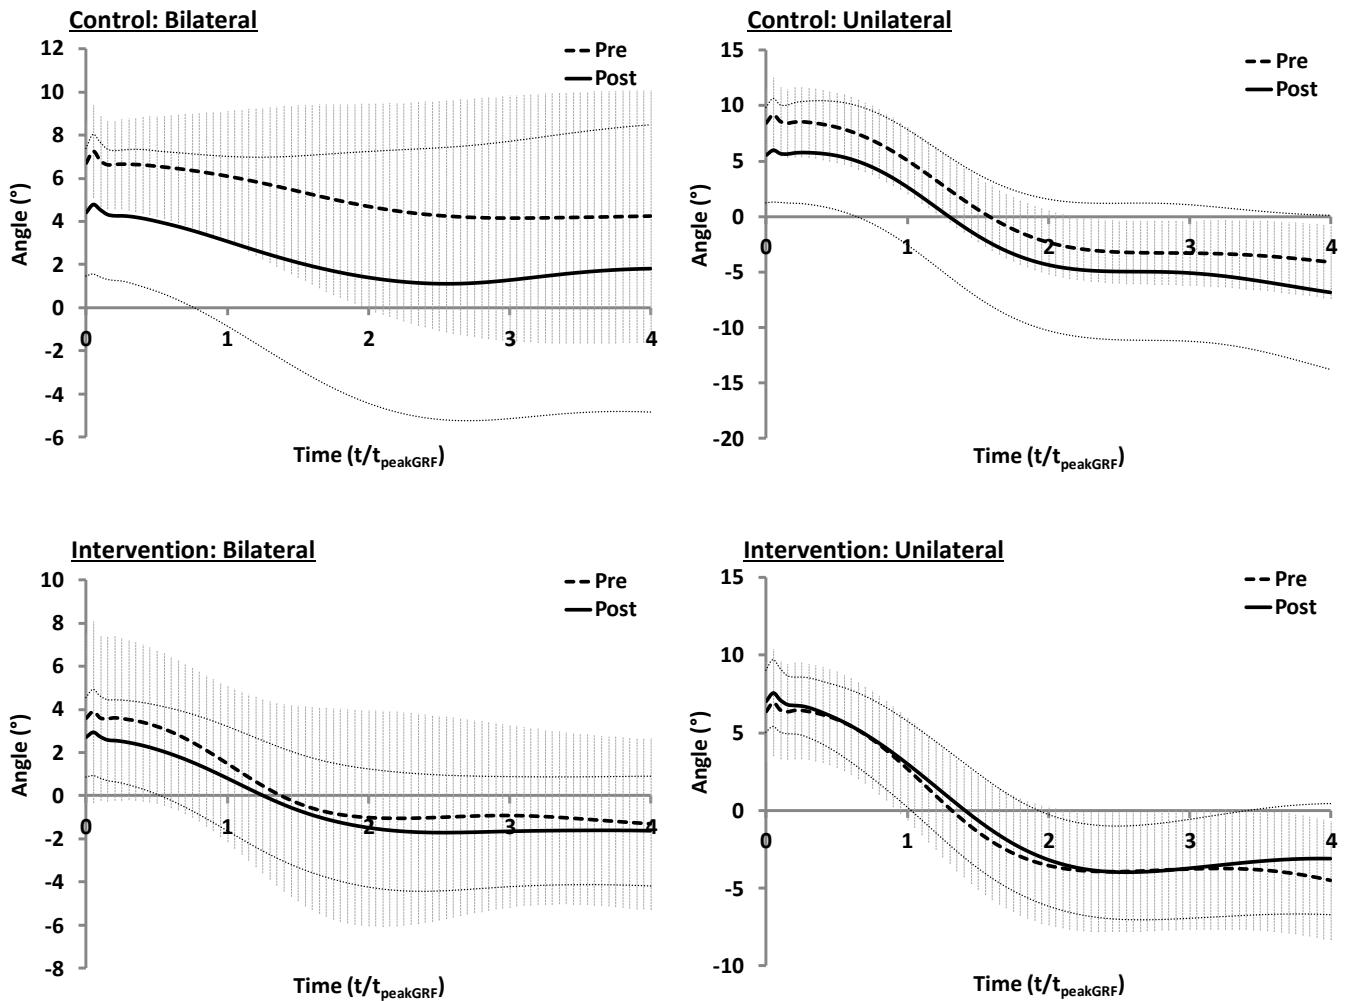

Hip: Int/Ext Rotation

More positive values represent increasing femoral external rotation

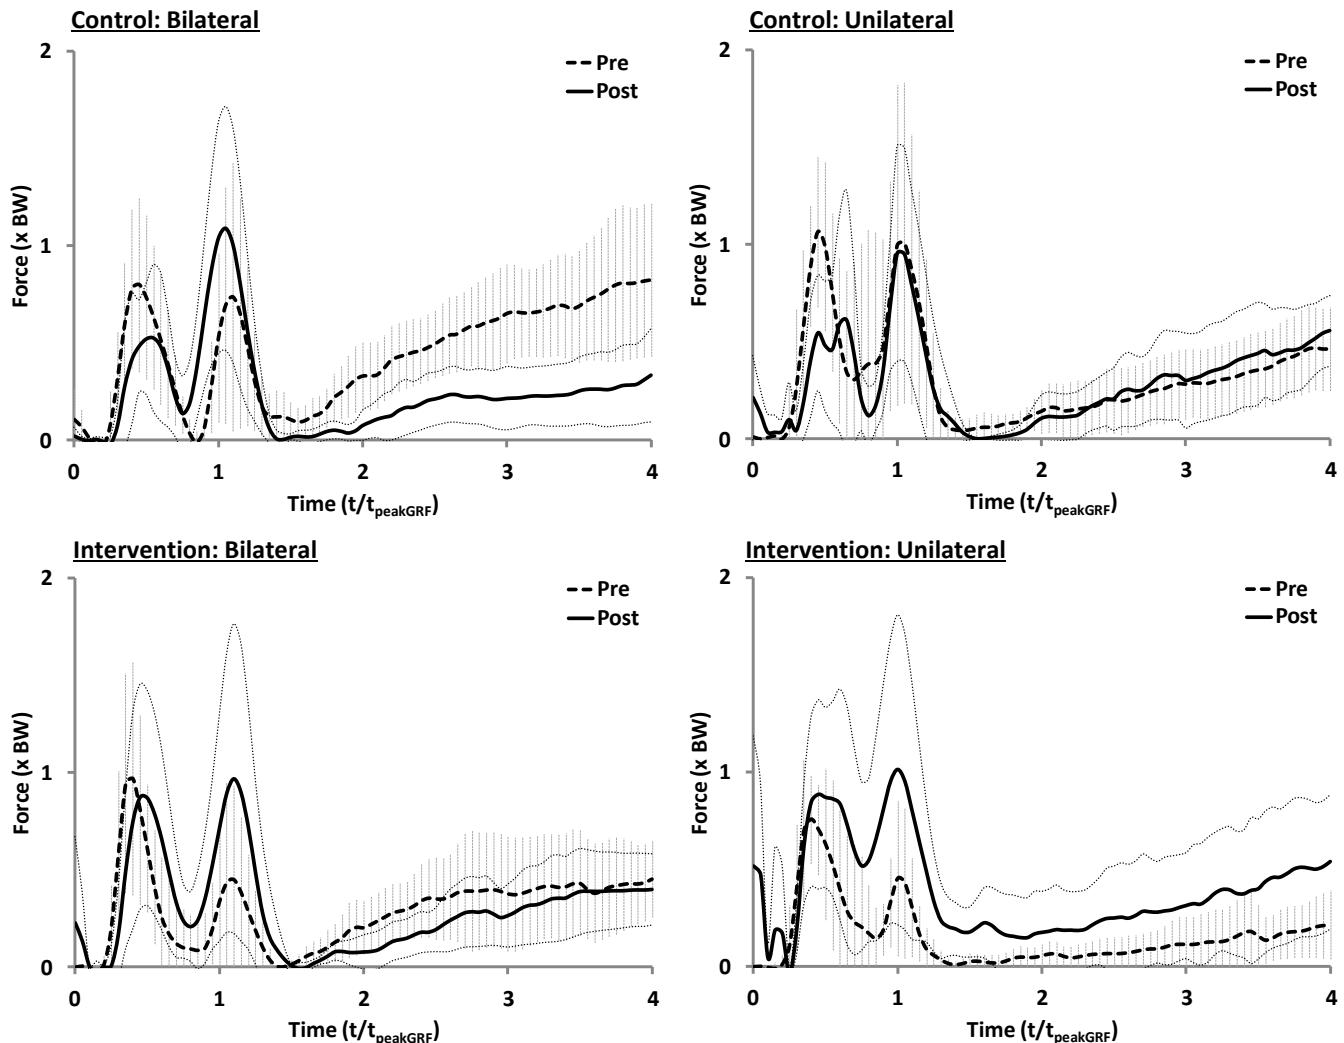

Hip: Ab/Adduction

More positive values represent increasing femoral abduction

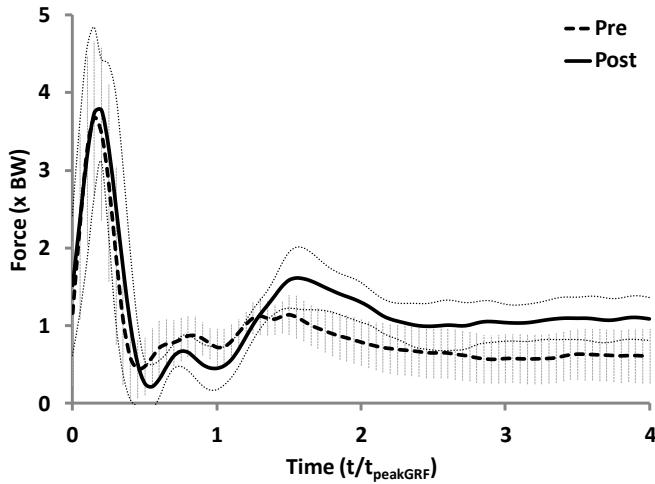

Biarticular Hamstrings

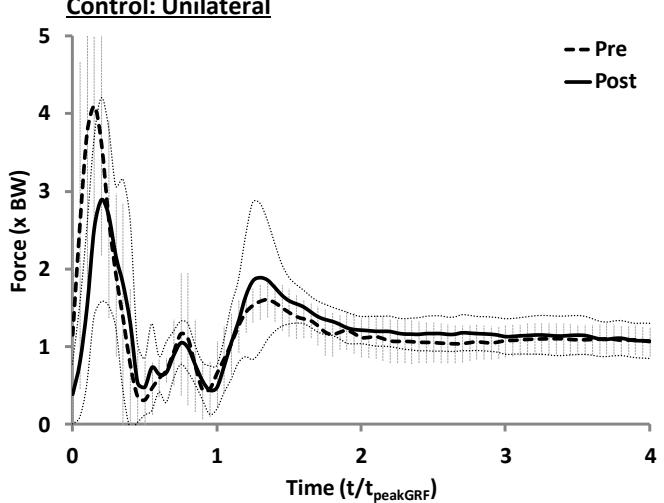

Rectus Femoris

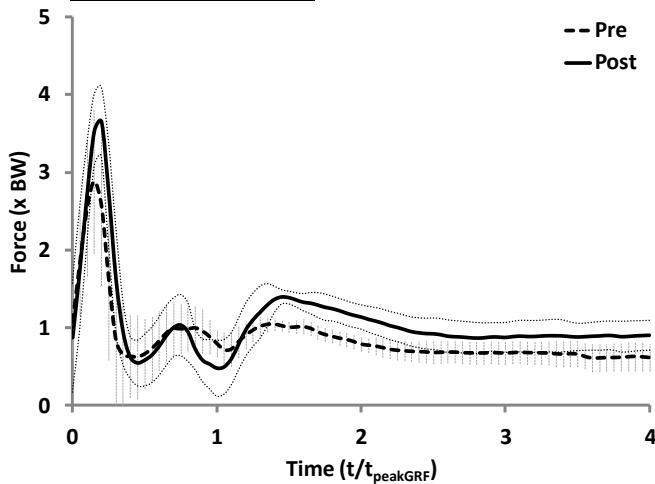

Control: Bilateral

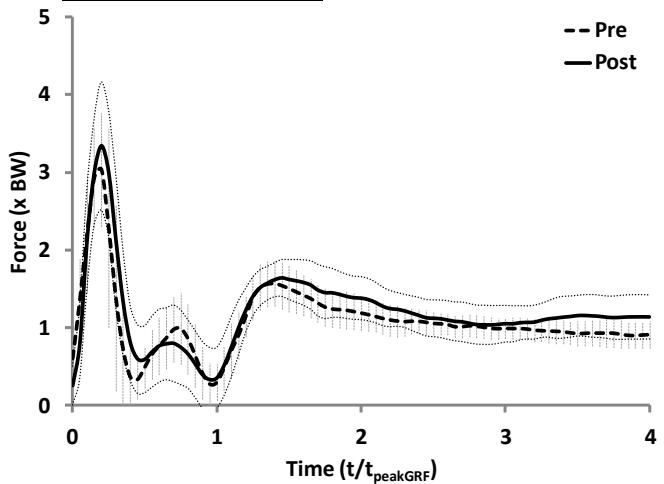

Control: Unilateral

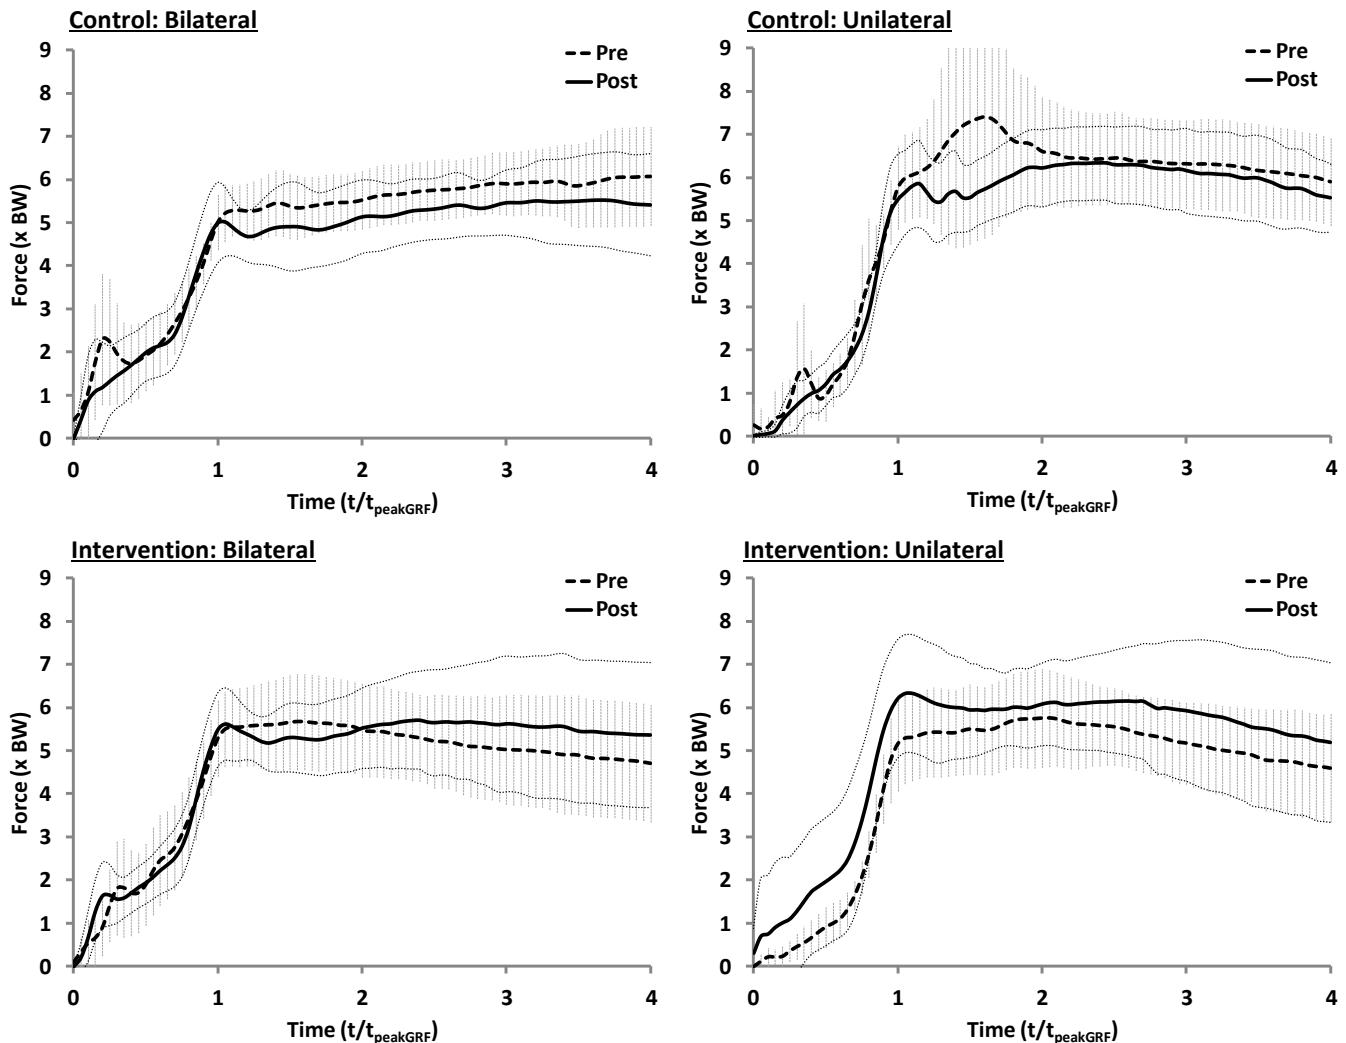

Intervention: Bilateral

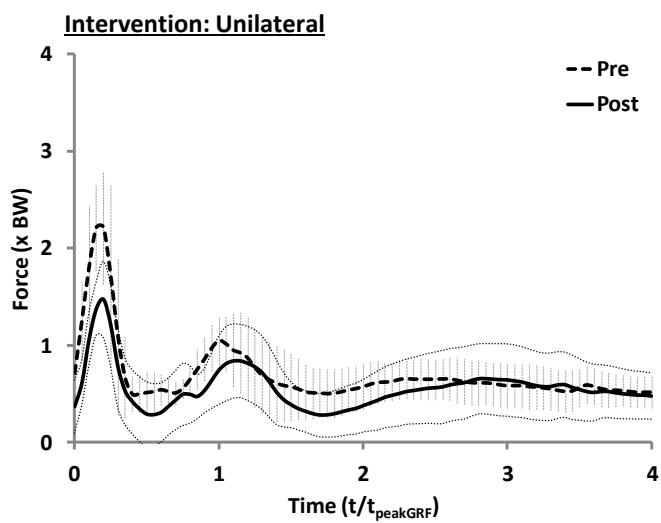

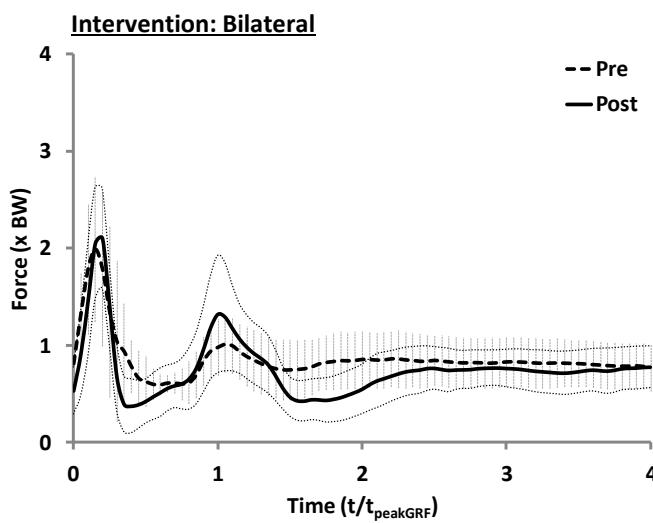

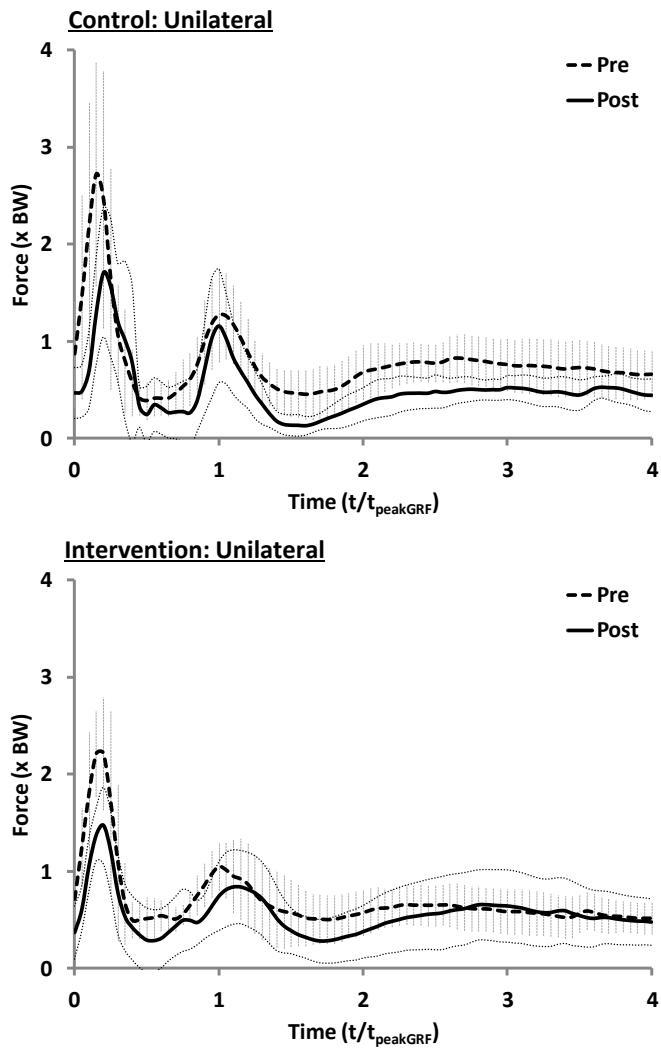

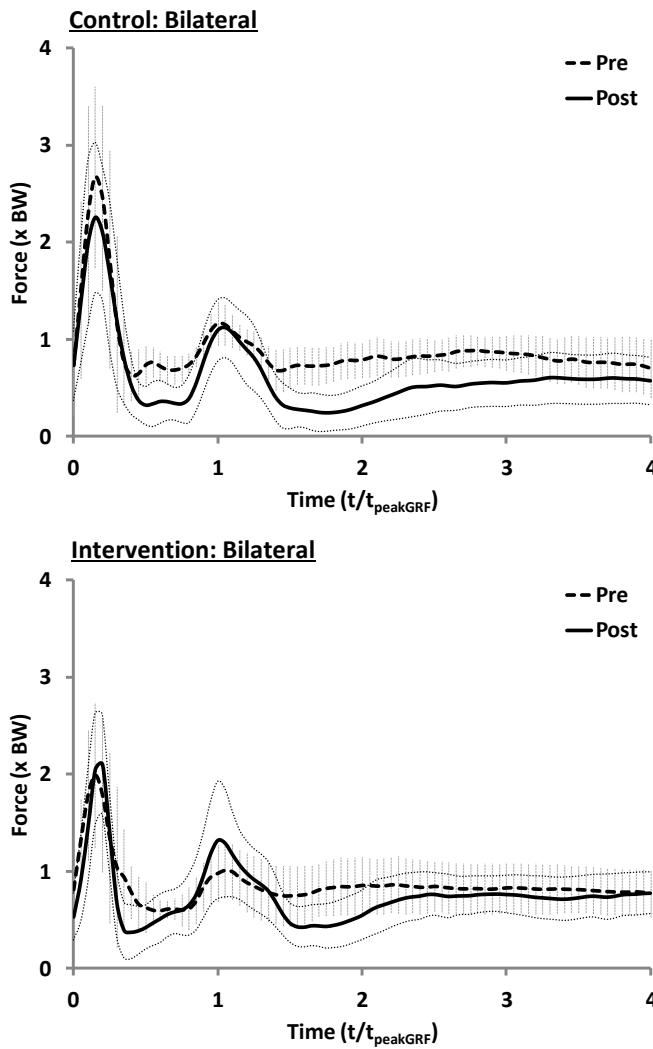

Intervention: Unilateral

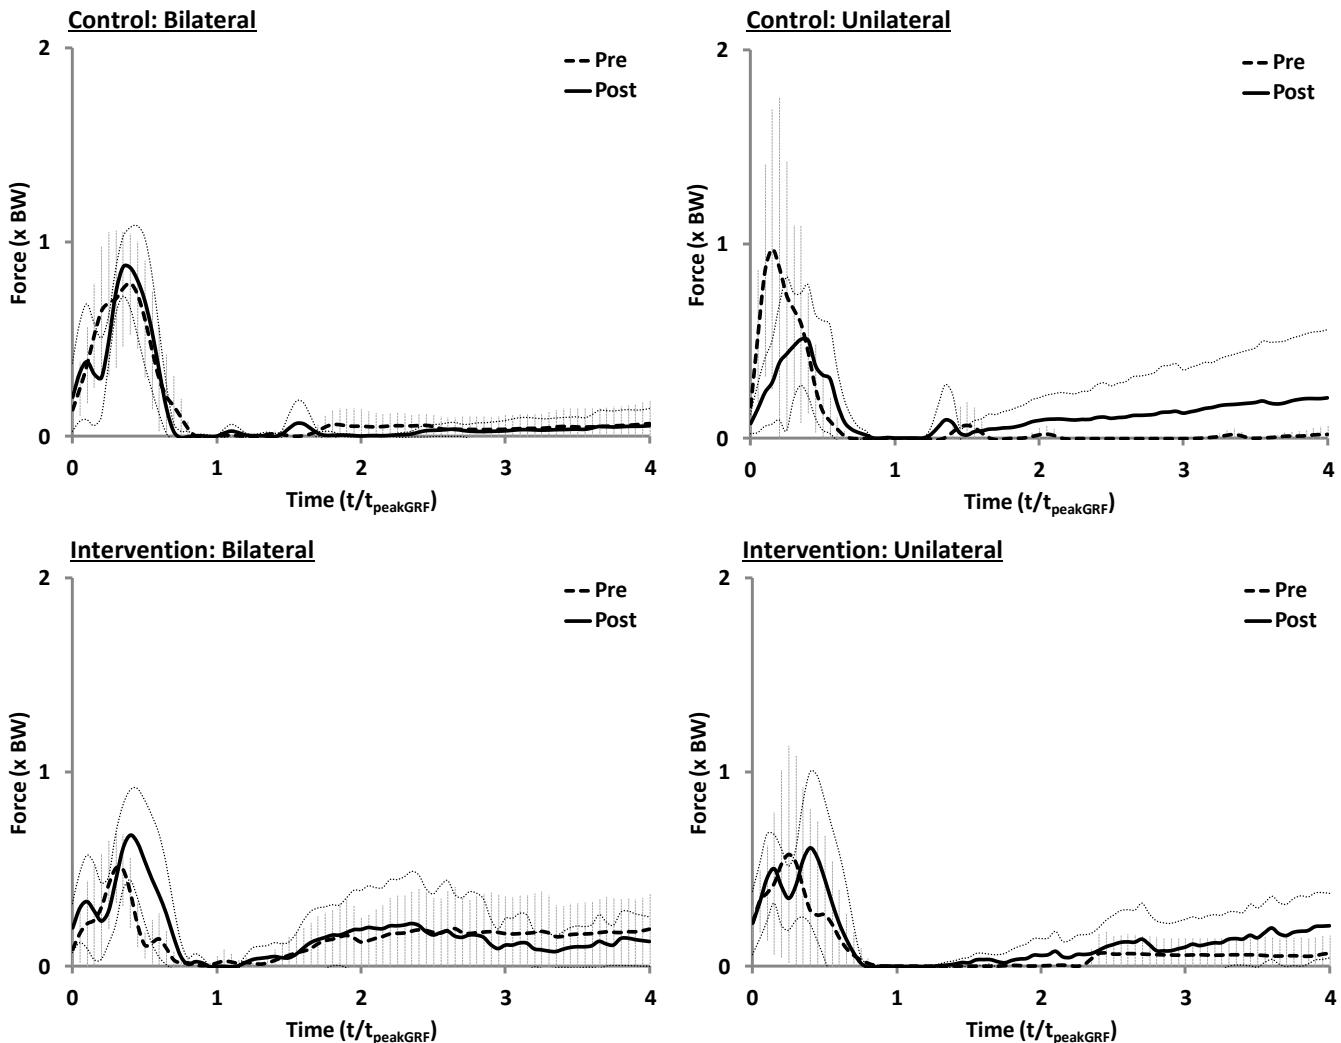

Vastus

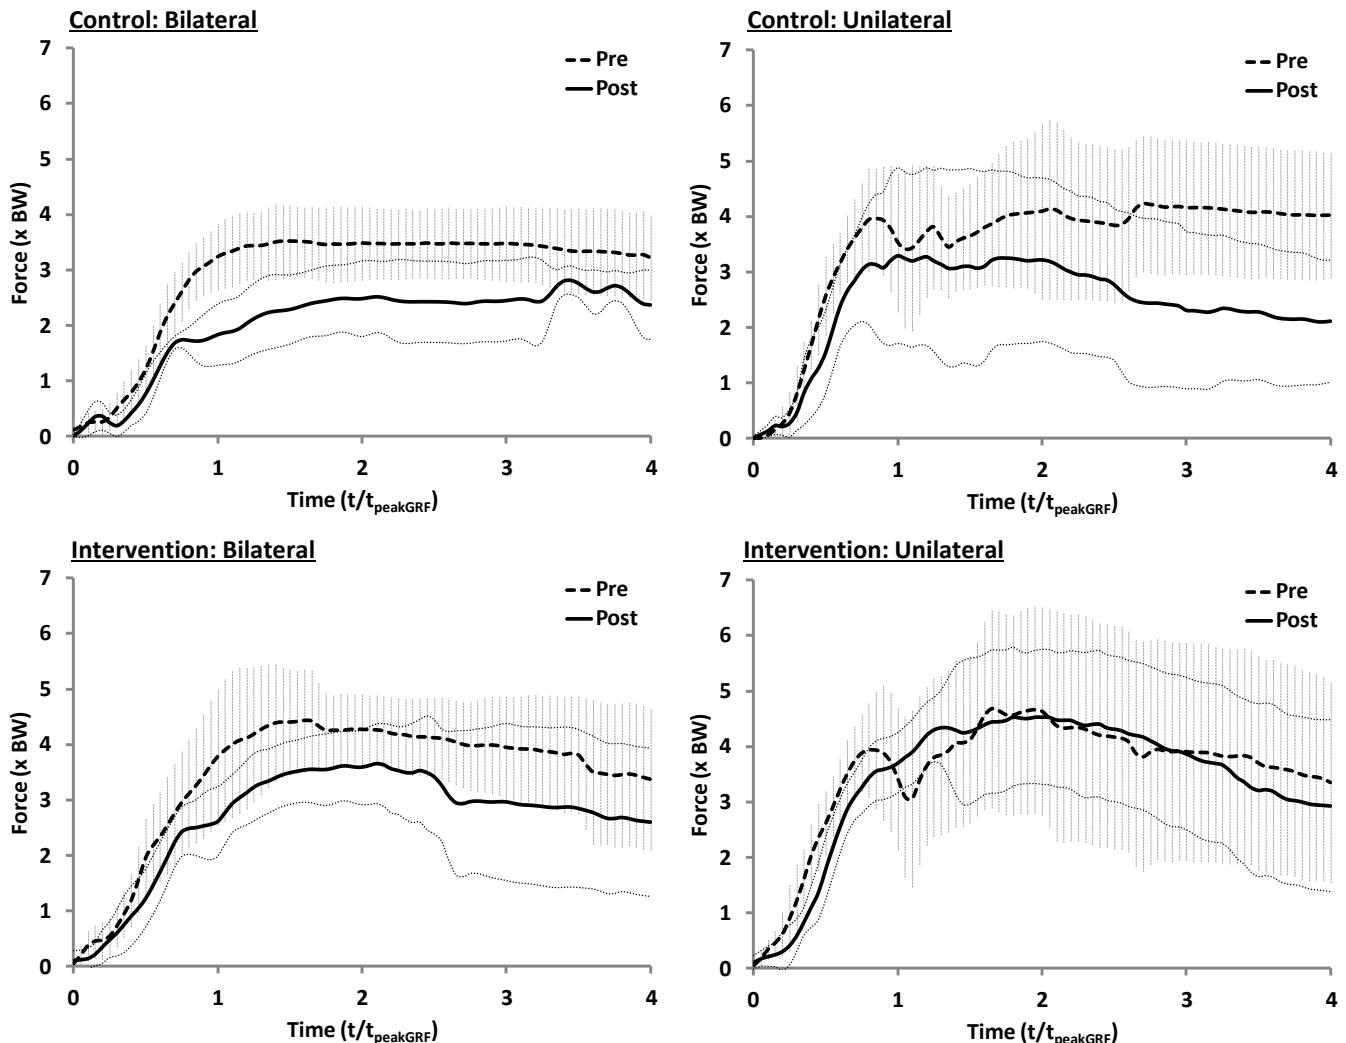

Adductors

Gastrocnemius

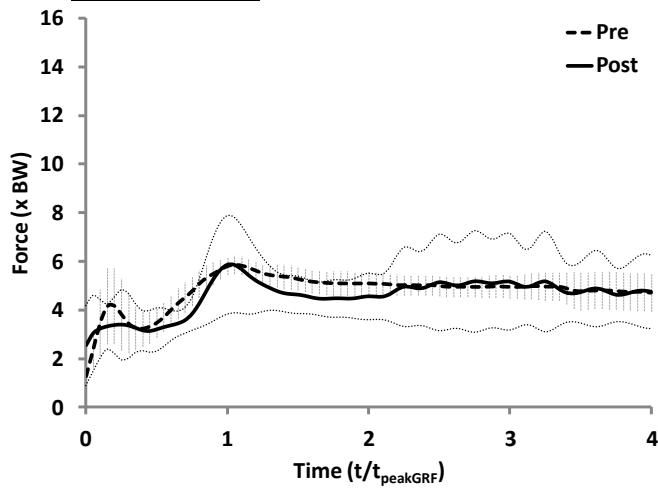

Soleus

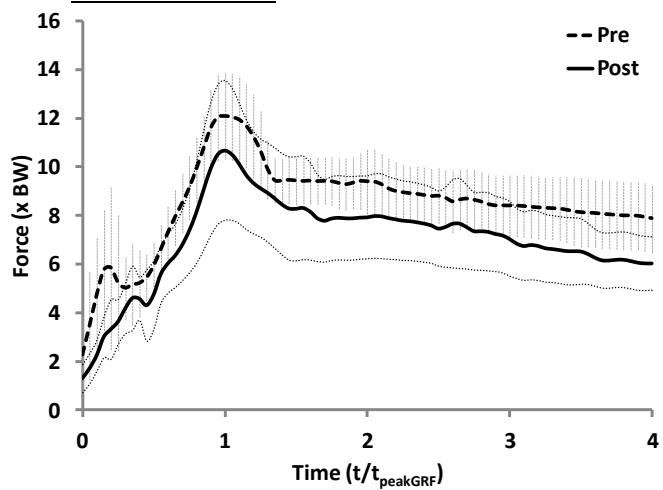

Ankle Joint Reaction Forces

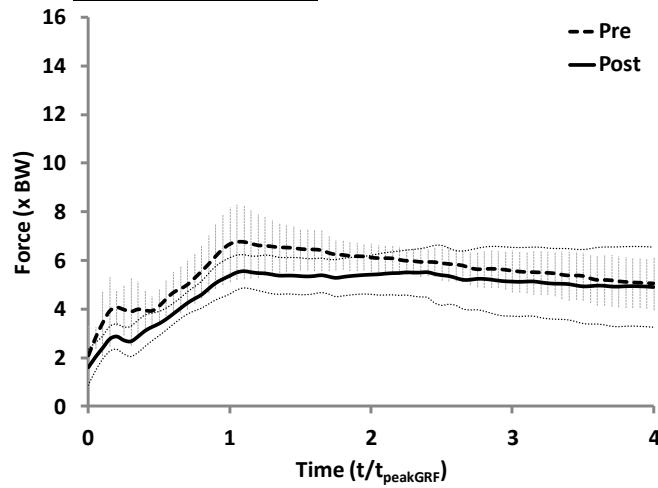

Control: Bilateral

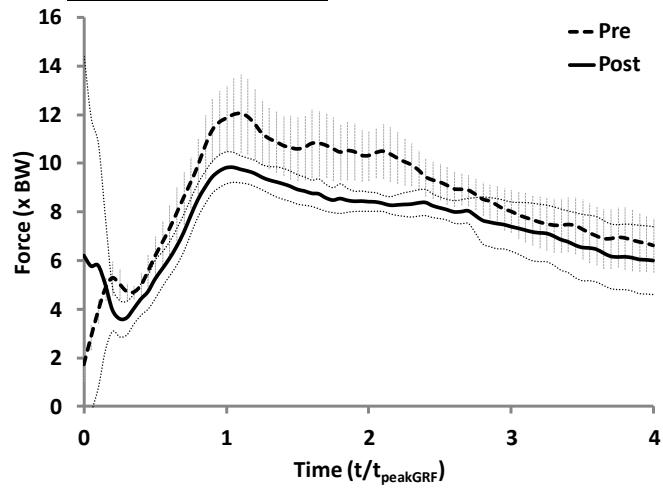

Control: Unilateral

Intervention: Bilateral

Intervention: Unilateral

Hip Joint Reaction Forces
